INTRODUCTION

The collection and dissemination of curriculum guides has been a concern of California educators for many years. It has always been difficult to obtain copies of the guides, and, after collection, the physical task of providing copies to interested parties has been virtually impossible. Because of these problems, the guides have not always been available.

The San Mateo County Educational Resources Center (SMERC) offered its services to the County Superintendents of Schools as a collection and dissemination agency. It was the intent to provide a yearly catalogue listing all of those guides submitted by county and local educational agencies. This is the third volume of the Curriculum Guide series. The fourth volume will be published in October, 1977. The first and second volumes are still available from our office at a cost of $3.50 each.

The Curriculum Guide Catalogue is not intended as an evaluation aid. Its purpose is to provide a state-wide awareness of curriculum guides produced during the year. The Catalogue has three sections: A Subject Index, an Institution Index, and a Summary Section. All guides are originally listed in the Catalogue by a "CM" identification number. This "call" number is the one to be used in requesting a specific guide. All documents cited in this Catalogue are housed by SMERC in MICROFICHE FORMAT.

The Subject Index lists all documents by subject areas. The Subject Index will enable you to locate the documents that are of interest to you. If you want to know what guides have been developed by a certain district or school, check under its name in the Institution Index. If you are uncertain as to the document content, check under its identification number in the Summary Section. A brief description of the document follows.

SAN MATEO COUNTY

EDUCATIONAL RESOURCES CENTER

SMERC provides information service to all educators in San Mateo County and to its participating member groups. Its resources include ERIC (Educational Resources Information Center), FIDO (Fugitive Information Data Organizer), the Professional Curriculum Library, and many specialized collections.

All collections emphasize new publications in emerging fields of education including new books concerning various disciplines in a broad range of subjects; curriculum guides, policy handbooks, and other national, state and local publications; more than 700 periodicals and newsletters regularly published by educational organizations and related agencies; and, directories and pamphlets published by the Office of Education.

Access to the storehouse of educational research and resources is provided to all San Mateo County teachers and also, through contract, to teachers and administrators outside of San Mateo County. Expert researchers probe the computerized files of ERIC and FIDO upon request of its subscribers. Information packets of microfiched documents, photocopies of journal articles, and bibliographies of abstracted documents are supplied to clients.

CURRICULUM MATERIALS DEPOSITORY

School Districts and County Offices in California are encouraged to participate in the Curriculum Materials Depository. In order that materials prepared by all districts may be made available to all interested persons, you are encouraged to send any curriculum materials produced since January, 1976 to the address below.

When sending materials, we ask the following:

1. Send original copies or good printed copies. We cannot photograph from poorly printed script, ditto copies, etc.

2. Please send two copies of each document if at all possible. One copy should be bound in the usual fashion and one copy unbound.

3. Please note on the title page the availability of the original document from you, i.e., the price if for sale, the address to which a person should write, or the fact that printed copies are not available.

4. Send the documents as soon as produced on a year-round basis to:

ORDERING INSTRUCTIONS

Any educator may request microfiche reproduction of the curriculum guides. A charge of 50¢ per microfiche card will be made, and all microfiche materials are the permanent possession of the client. To determine the number of cards for any specific document: note the number of pages in each document, estimating 46 pages on the first microfiche card, and up to 60 pages on each additional card.

Standing orders are offered to any institution at a cost of 35¢ per microfiche card. Institutions wishing the complete collection may order at the following prices:

1974 volume, 418 titles - $550
1975 volume, 296 titles - $450
1976 volume, 210 titles - $300

Please note that complete collection orders are subject to a delay of 60 days. Current microfiche will be sent quarterly for standing orders with the appropriate billing. The Curriculum Guide Catalogues, including this third volume, are available at a charge of $3.50 each. The Catalogues are furnished free as a regular resource guide to subscribing agencies.
